REHAU Heritage Period style

The REHAU Heritage system has been developed following extensive consultation with conservation bodies and as a result our sliding sash window is one of the most distinctive and authentic-looking PVCu sash window available on the UK market.

Windows. Reinvented for modern life.

REHAU

Simply superior

The REHAU Heritage window system is designed to incorporate all the desirable traditional features of a timber sash window, yet with all the additional benefits and conveniences of modern PVCu.

The system includes all the classic detailing found in period sash windows, including a deep bottom rail, slim sashes for improved sightlines and an optional georgian bar and has two sashes built into the frame which slide in opposing directions and will remain fixed in any position.

A sub-frame, which makes up three sides of the window, is the most popular configuration and is welded at the top two corners whilst mechanically joined at the bottom with a sill and screws. The sill is sealed off at each end with an end cap to prevent water ingress into the walls of the property.

The sub-frame can also be an all-welded construction with a clip-in sill. This detail is used in installations where stone sills are present. The three-chambered sash profiles are designed with two front chambers to achieve good heat insulation and allow isolated drainage. The third chamber allows the fitting of specifically designed reinforcement sections.

Noise reduction: Double glazed sealed units considerably reduce outdoor noise levels, allowing you to relax in the peace and quiet of your home.

Energy Efficiency: The REHAU Heritage window is capable of meeting current building regulations and can be specified in most applications. The Heritage window can achieve an A Rating with a U-Value of 1.4W/(m².K) using a common double glazed unit for use with higher energy ratings.

Safety and security: The superb period look is backed by a very modern approach to security. Our three-chamber sash profiles allow for even stronger reinforcements.

Low maintenance: Our systems contain a unique compound with a smooth gloss finish guaranteeing they retain their pristine appearance. It also means they will never warp, rot or need painting.

Authentic innovation

Heritage windows include the traditional detailing found in period timber box sash windows. With this in mind we have included a deep bottom rail, georgian bars, run through sash horns and foil laminate options to replicate the look of painted wood.

Choose your style

Successfully approved and installed in conservation areas across the UK and Republic of Ireland, Heritage vertical sliding windows are suitable for any style of home.

Further options allow for classic-style hardware and fittings with optional decorative horns and georgian bars to replicate the traditional timber aesthetics to complete the stunning finish.

A slim sash is designed specifically to replicate the more elegant sightlines of traditional wooden windows.

Choose your finish

If you like the look of traditional painted windows but want the benefits of PVCu and double or triple glazing then you'll love REHAU's fantastic foil laminate range.

With our laminate PVCu, the colour and finish options are vast. These complement both the exterior and interior of your home – you can choose one colour and finish for the outside and a totally different one for the inside. 24 laminate options include an attractive range of woodgrain effect finishes all contained in our easy-to-use swatch and split into four simple collections to help you choose the look which matches your home.

All laminate finishes carry extensive guarantees and are well proven for high performance and longevity in all types of weather conditions and all areas, without colour deterioration or fade.

Style your home

Create a unique look with a wide range of colours and finishes.

Creating the perfect colour scheme for your home doesn't have to stop at the interior decoration – now you can choose a colour scheme for the windows and doors in your property. Your new windows and doors will not only be of the highest quality, delivering performance year after year, but you also have the option of turning them into a real design feature.

Our three colour collections offer a rich array of colours to meet the aesthetic desires and the distinctive ideas of each and every homeowner.

Standard colours – available from stock. All other colours – Lead time of 6-8 weeks from place of order. We have made every effort to show the colours as accurately as print processes will allow. However, we cannot guarantee an exact colour match to that of the actual products, and the colours contained shown here should not be relied on as such. We recommend that you discuss colour samples with your local REHAU installer or request a colour swatch at enquiries@rehau.com.

Fitting quality

The REHAU Heritage system has been designed to accommodate all possible hardware requirements.

Steel-reinforced sliding latches allow the sashes to be tilted inwards to enable the window to be cleaned from the inside of the property, yet the facility is concealed for aesthetic and safety reasons.

The latches can be locked off to prevent unauthorised tilting of the sash.

Standard balances of 14mm or 19mm diameter may be used, and it is also possible to fix all hardware into a specially designed steel or aluminium section for increased security performance.

Summary of options available with the REHAU Heritage system:

- Stepped frame with either mechanically jointed sill or fully welded options
- 4 Sash options including a Deep bottom rail for a traditional timber look window.
- Standard glazing unit sizes of 24mm and 28mm
- Supplementary profiles and seals, including Chamfered and Sculptured Georgian bars
- Triple brush seals in the frame create an excellent barrier against water and air.
- A range of heritage horn styles including run through sash horns.
